

SDL WorldServer Stand and Go

Data Sheet for Service Delivery

The SDL WorldServer Stand and Go solution is designed for customers to be up and running with SDL WorldServer with minimal effort, cost and time.

The Stand and Go solution provides customers with an entry level system to enable them to explore SDL WorldServer's core capabilities. This solution is implemented by SDL consultants dedicated to assisting SDL customers to improve their language translation process.

An important aspect of the Stand and Go solution is the post implementation workshop in which the SDL solution experts will work with customers to understand their business needs which will allow them to unlock, adapt and get more out of the enterprise technology during the customers technology journey.

AT A GLANCE

Key Features

The SDL WorldServer Stand and Go Solution includes:

- A Business Process Review
- A Solution Design Session
- Setup and Configuration
- Training and Assistance
- Collaborative road map to enable future business needs
- Access to SDL's most up-to-date knowledge and learning

Benefits

The Stand and Go solution allows customers to get SDL technology in their hands rapidly to better understand the solution capabilities in order to maximise efficiency of their translation program.

Key Benefits are:

- Reduce idea-to-solution cycle time
- Go live with core functionality in a few weeks
- Low startup cost on initial implementation
- Delivers on-demand and rapid resource elasticity for scale
- Provide recommendations for improvements to extend and enhance the solution to meet business needs

When to Use

The SDL WorldServer Stand and Go solution is particularly useful as a solution to kick-start a proof of concept or a jump start environment for the business to explore the extensive capabilities.

DELIVERY DETAIL

Preparation

SDL will schedule a kick off meeting to review basic business requirements and discuss desired outcomes from this engagement. Before engagement, you should:

- Identify a technical team experienced in the following and ensure availability throughout the implementation:
 - Server hosting and monitoring
 - DBA (database administration)
- Establish Installation logistics
 - Onsite or Remote. If remote ensure that external server access is permitted outside of the company.

Delivery

The solution is delivered by SDL consultants, on and off site. During the implementation phase the SDL consultants will fulfil the following deliverables:

- Application deployment
- System configuration
 - 5 language pairs
 - 2 Simple Workflows
 - 2 Project Types
 - Up to 15 Users
 - 1 Translation Memory
 - 1 Terminology Database
 - 1 Language Service Provider (test data only)
 - 1 Cost Model (test data only)
 - Microsoft Office Files Supported
- Training and Assistance Schedule
- Business Scoping and Process Review
- Value Based Engagement Report*

*360° Approach

Once the initial Stand and Go solution is deployed and has been tested by a controlled group, the SDL consultants will facilitate a workshop with all key solution stakeholders to align business objectives to achieve more efficient translation processes. The workshop is designed to enable clients to increase the utilization of their SDL WorldServer translation management system by identifying process or systems improvements. The workshop provides:

- Discussion into current system configuration, processes and user behaviours – held with test users
- Recommended solutions to facilitate process improvement and system utilization
- Shared findings and proposed solutions with all stakeholders

DURATION

The solution is usually delivered by a project team consisting of a project manager and a consultant requiring 15 – 20 working days effort depending on the scale of the implementation. Duration can vary based on customer size, complexity and location.

GETTING STARTED

Leverage SDL's Professional Services methods, tools, and extensive experience with customer implementations across diverse industries and geographies. Tight integration with Training and Support puts the entire SDL team behind your success.
